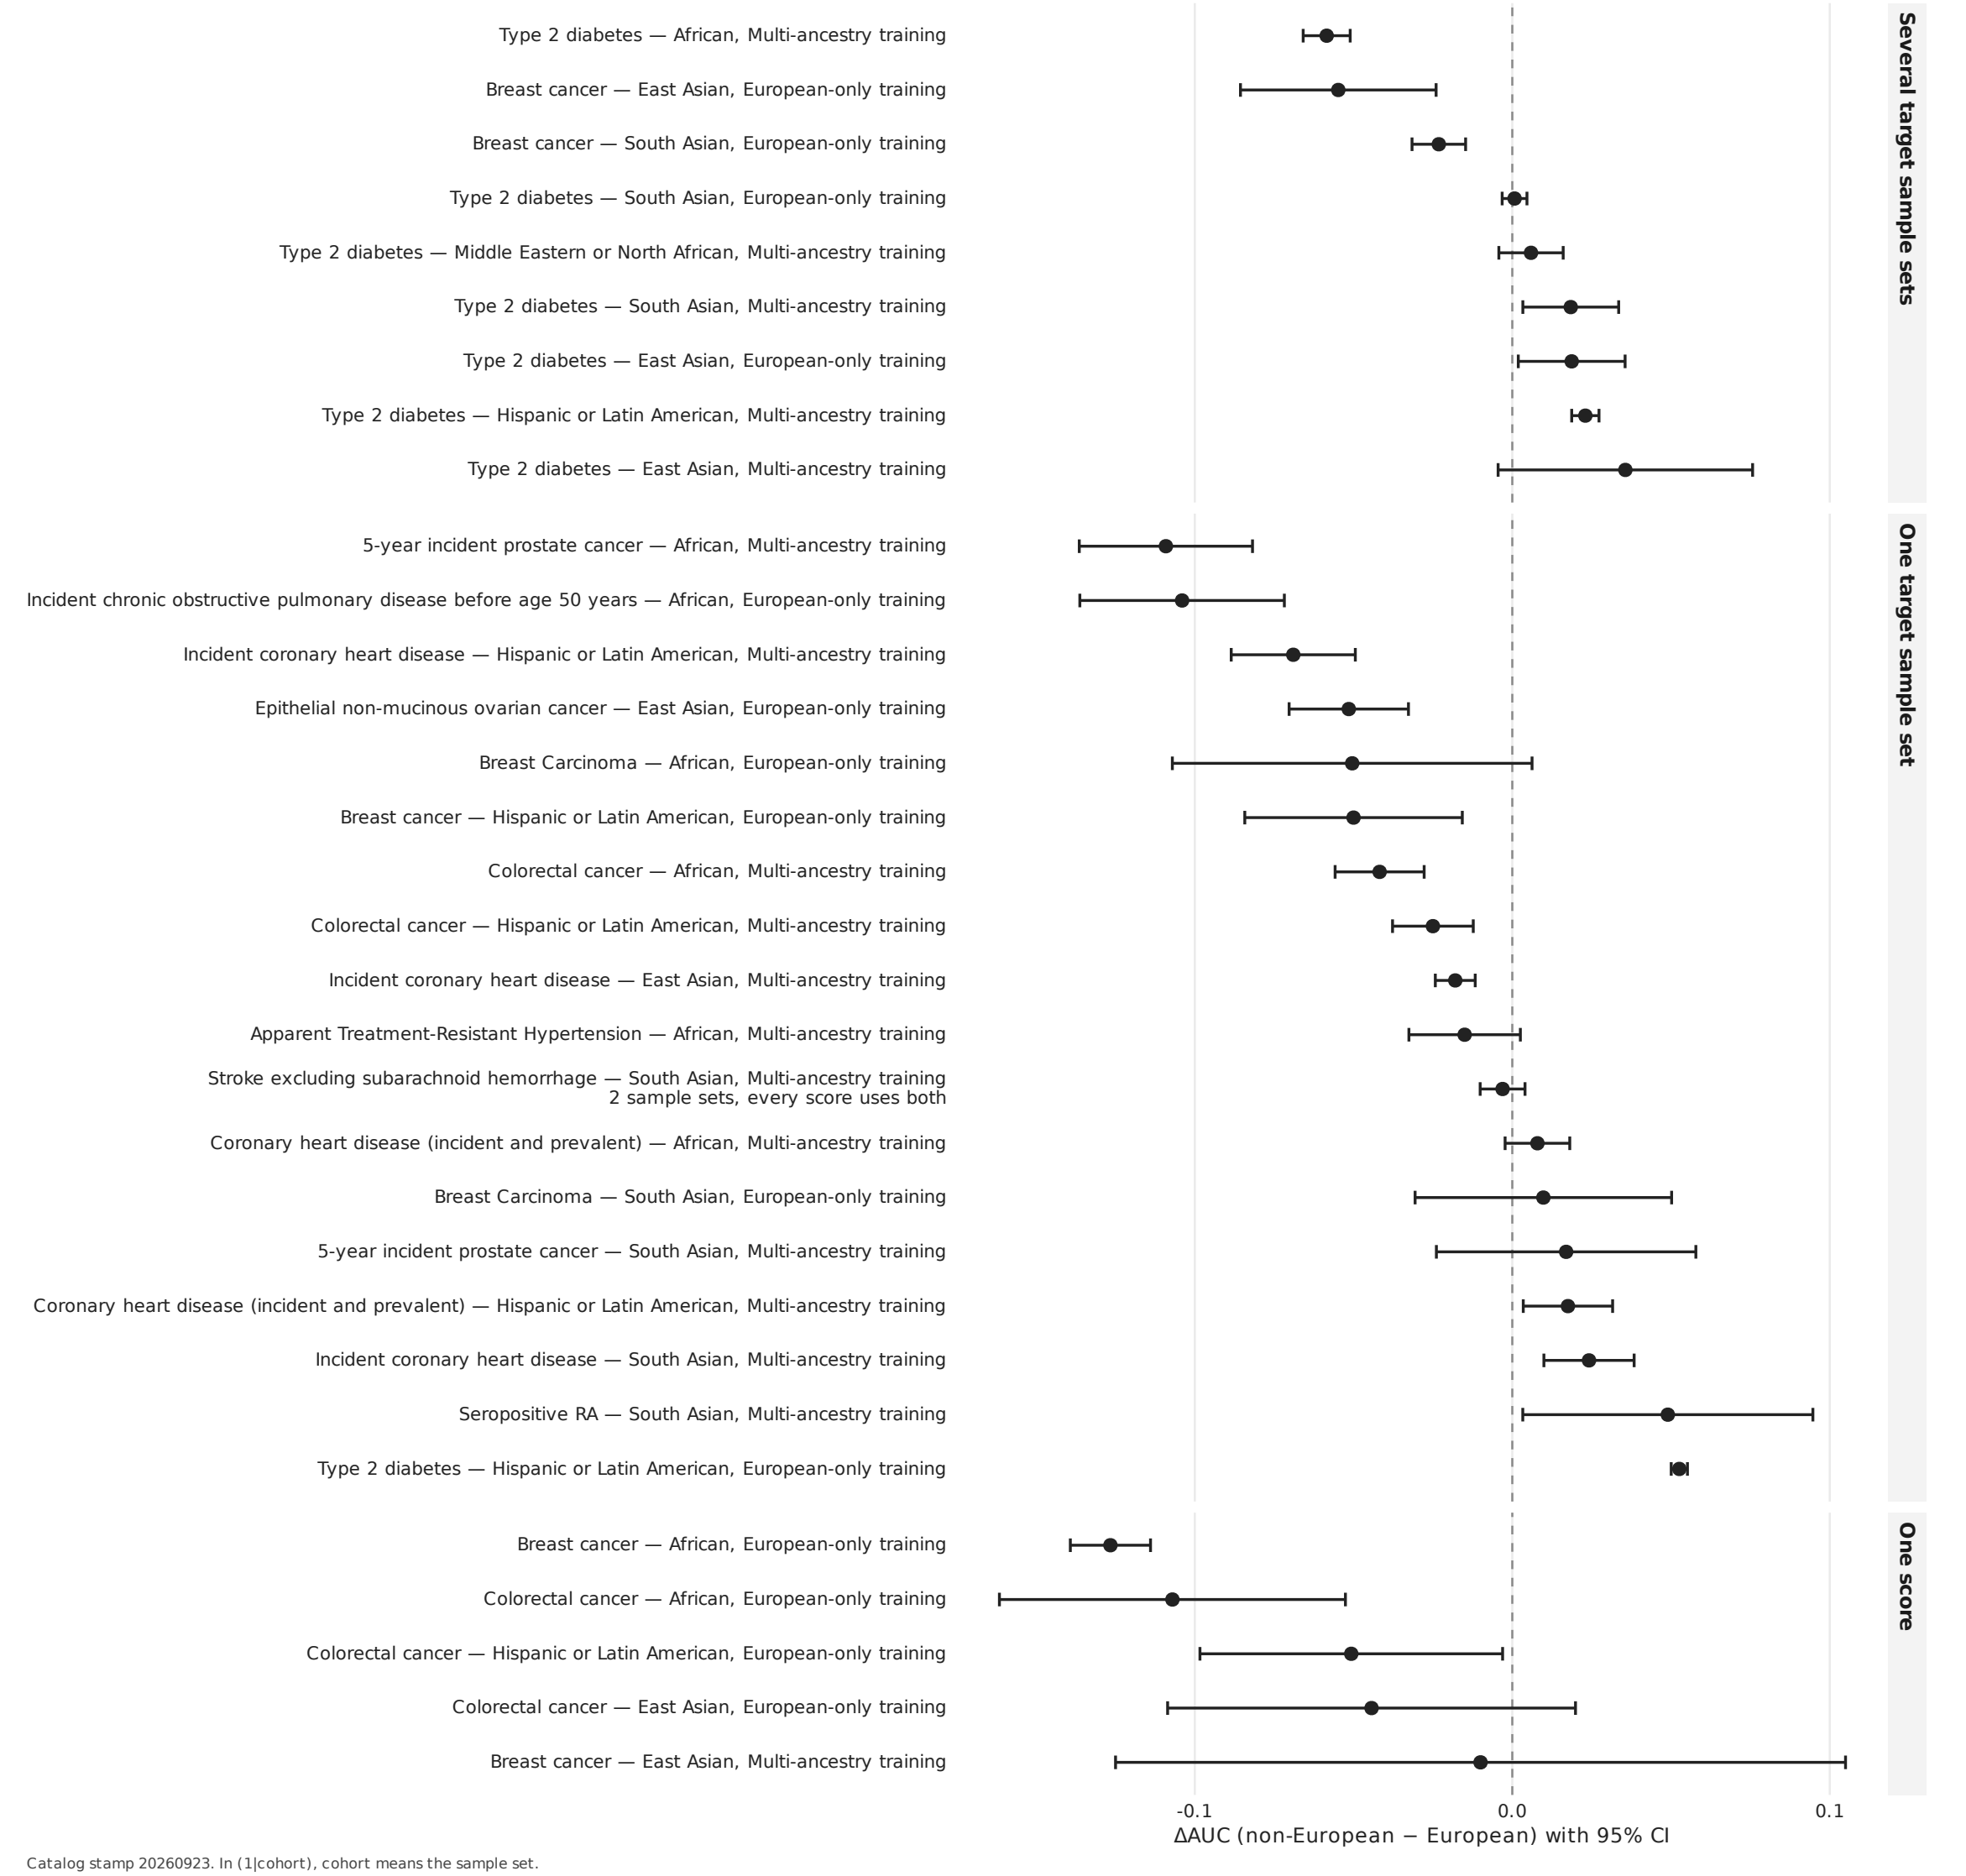
1. All PGS IVW in each comparison

Each row is one comparison: one trait, one training set, and Europeans compared with the ancestry group named here.
The top panel uses more than one target sample set, so the sample-set term can be fit. The middle panel uses one. The bottom panel has one score.



Catalog stamp 20260923. In (1|cohort), cohort means the sample set.
Stroke is in the middle panel. It uses two South Asian sample sets, and every score uses both.
This figure is not on the page for Georg.
